

Cumulative organ donors - Victoria

If this rate of donation continues for the remaining two months of 2010, we will have 96 deceased donors in Victoria for 2010. This will be more than a 50% increase from 2009 numbers (64 donors) and 2008 (67 donors), and a 100% increase from 2007 and prior when we had approximately 50 donors per year (55 in 2007, 46 in 2006 and 50 in 2005).
